Read More Minecraft Pocket Edition, also known as Bedrock Edition, is the version of Minecraft that can be played on devices such as mobile phones, tablets and consoles such as xbox and PlayStation. Minecraft PE is largely the same as the Game's Java Edition, except for a few changes here and there. One real benefit of minecraft PE's game, however, is the ability to cross games across all platforms that support it. So now that you and your friends are ready for some Minecraft PE multiplayer action, it's time to delve into the world of Minecraft servers. Minecraft PE servers that have a ton of different game modes, as well as the many content that is optional, are the best way to explore the game in ways you may never have had before.5 best Minecraft PE servers in 2020Here are the five best Minecraft PE servers you can check.1) NetherGames NetherGames is one of the largest minecraft PE servers , which has an active pretty community for users, as well as regularly updated content for more and more players. The server offers a wide range of game modes, including skyblock, Bedwars, Skywars, Creative Plots, Duels and Factions, as well as unique ones like Killer Mystery. There are also regular races and rank upgrades to win. IP address: play.nethergames.org.2) FallenTech PE Images: Amino AppsFallenTech PE is a great server to Try out several different types of game modes. This Minecraft PE server comes equipped with mini games, shutter, factions, Skyblock and survival, as well as PvP and Raiding game modes. In addition to these games, you will also fair little personalized content, as well as a rather complex economy working on the server. IP address: Play.fallentech.io.3) HyperLands Images Credit: For-Minecraft.comHyperLands is a Minecraft PE server that runs mini games pretty well. It has tons of other game modes that include Skywars, Bedwars and several different ones such as bridge, duels and UHC Meetups. HyperLands has an active community with regular voting through which you can earn coins for the server economy, as well as rewards in the form of ranks and XP. IP address: play.hyperlandsmc.net:19132.4) CosmicPE images credits: For-Minecraft.comCosmicPE is a Minecraft PE server that provides immersive PvP experience featuring gaming modes such as factions, as well as unique elements like Warzone, where players can engage in epic battles. The server has tons of custom improvements ranging from simple to legendary and unique battle elements as well. IP address: play.cosmicpe.me.5) EmperialsPE images with captions: Minecraft PE servers ListEmperialsPE is the best skyblock experience you can get on a Minecraft PE server. The unique challenge of the typical Skyblock has been improved with the server's own additions to game mode. With features like Free Fly, Island HeadHunting, Slayer/Miner Minions and a large trading system, the Skyblock experience in emimizedPE is one you may not have had before. IP address: play.emperials.net:19132. Published October 7, 2020, 13:58 IST This page has been tagged and is currently waiting for deletion pending the criteria below. [to discuss] Criteria: This page should only be deleted when consensus is reached. Reason: See Talk:Feature servers Image of all included servers in the release Initial Image This feature is only for the Bedrock version. The recommended servers are public servers for the Bedrock edition, which have partnered with Mojang Studios and are accessible from the list of servers in the game. In console versions, they are the only servers available except Realms. Although the Legacy Console edition's mini games are missing in the Bedrock edition, the servers offered can have their own mini games to play online. Submitted servers require a Microsoft account[1] and require a paid multiplayer subscription only for consoles. However, they have microtrans transactions that can be purchased from their own parts of the market. The presented servers were added as part of 1.2.0, a better together update. There are currently six selected servers, and Mojang Studios plans to add more in the future. Owners of servers with registered business identities can apply for the affiliate program. Mojang Studios offers partner servers with server support.
